To Whom It May Concern,

Thank you for taking an interest in my application. I am an enthusiastic and creative 2D Animator, Character & Graphic Designer with experience as an Art Director. Furthermore, I've learned a great deal during my time at **Vancouver Film School** and I'm very eager to apply my knowledge to a production environment.

My education and my professional experience have allowed me to obtain strong skills in animation, background design, character design, compositing, storyboard, illustration, advertising and art direction.

Key skills I can offer include: understanding the client's needs and developing suitable concepts, designing different types of animation style, working in a fast-paced production environment, good verbal and written communication skills, strong attention to detail and design quality.

I have been involved in many design competitions for famous Italian brands such as **San Benedetto Mineral Water**. I contributed to the creation of brand projects for **Adidas, Winston, Imetec** and others. During these competitions, I demonstrated my ability to work under strict deadlines. Examples of these designs can be found in my portfolio.

I am sociable, dynamic, and always looking to advance my skillset. I believe that with my skills and experience I would be a strong addition to the team. Please take a moment to review my website and I'd be glad to provide you with any additional information or documents you need. I look forward to meeting you in the near future, thank you for your time and consideration.

Sincerely,

Valeria Cappellin
